This is an important document.

The Financial Conduct Authority is the independent financial services regulator. It requires us, Fundment Limited, to give you this important information to help you decide whether the Fundment General Investment Account (GIA) is right for you.

You should read this document carefully to understand what you are buying and then keep it safe for future reference.

We do not provide or offer financial, legal or tax advice. You should seek your own financial, legal or tax advice from a Financial Adviser or another suitably qualified professional.

I Aims

The purpose of this Key Features document is to provide you with a clear summary about the General Investment Account provided by Fundment, so it is important that you also read this document along with the Platform Terms and Conditions, Fee Schedule, Product Illustrations and other documentation provided to you.

The Fundment GIA gives you the potential for capital growth, income, or a combination of both.

Through the wide range of investment options offered by this product, you and your financial adviser can select the investments that are suitable for your personal circumstances.

The available investment options include model portfolios designed and run by various investment managers, unit-trusts, OEICs, exchange traded funds and investment trusts.

Your commitment

Please take time to read this document and ensure you understand the key features and risks.

To enable us to provide you with up-to-date information, please ensure you notify us of any change in your personal circumstances and you keep a close working relationship with your financial adviser.

You may invest a lump sum or make regular contributions with no maximum during each tax year. There is no minimum period for holding a GIA, however you should consider it to be a medium to long term investment.

Generally, you will need an email address in order to access your account.

Please ensure you maintain sufficient cash balance in your account to pay relevant platform fees and agree with your financial adviser how you wish they are paid.

You should review the investments in your account and speak to your financial adviser regularly to ensure they remain suitable for your investment objectives.

You must agree to be bound by our terms and conditions and to pay the charges set out in our fee schedule.

| Risks

We cannot guarantee the amount you will get back when you cash in your investments as the value of investments may rise and fall and you may get back less than you invested.

The amount you get depends on a number of factors including:

1. Returns from your investments which may be different to those outlined in the illustration document.
2. Taxes may change.
3. Inflation may erode the purchasing power of the money you have saved.
4. If you decide to cancel within the cancellation period, you may get back less than you invested. Our charges on your account will also affect the overall value of your investments. These charges may change from time to time, but are outlined in the key features illustration.

Once your financial adviser enables you, you can add funds by making a lump sum or setting up a direct debit for recurring contributions. You can also transfer existing GIA accounts.
